KPI definitions

Customer churn dashboard · source: customer_churn_cleaned.csv (15 customers)

KPI	How it is calculated	Value in this data
Churn rate	Churned customers ÷ all customers	**46.7%** 7 of 15 customers
Retention rate	1 − churn rate	**53.3%** 8 of 15 customers
Revenue at risk	Sum of MonthlyCharges for churned customers	**$409.93** per month (about $4,919 per year)
Average tenure	Mean of TenureMonths, for all, churned and retained customers	**18.8 months** churned 7.0 · retained 29.1
Tenure-band churn	Churn rate within TenureMonths bands: 0-6, 7-12, 13-24, 25+	**100% → 0%** from 0-6 months to 25+ months

Note: based on 15 customers, so treat results as directional. A customer counts as churned when Churn = Yes.
